Immersion Experience

Immersion Experiences allow customers to learn about the value of technology by experiencing it firsthand. Immersions demonstrate how Microsoft's entire suite of infrastructure, application and productivity solutions work together to solve the challenges businesses are facing every day.

What is it?

An Immersion Experience is a facilitated, hands-on experience which allows customers to test-drive the latest Microsoft solutions in a live cloud environment.

What happens in an Immersion?

Immersions are meant to inspire customers by creating an immersive experience where attendees discover for themselves what's possible in a Microsoft-powered organization. A trained facilitator will guide you to discover solutions to your business challenges.

What is the goal of an Immersion?

Opportunity to try it for yourself and test drive the latest Microsoft solutions and technologies in a live cloud environment, no sales!

What topics are covered?

Microsoft 365 solutions including Modern Workplace, Teams, Hybrid Work, Security, Compliance, Identity, and Surface sessions.
Sessions can be customized at request.

How many people?

19 participants are given access to a Windows 11 virtual machine within a Microsoft 365 cloud environment.
Can accommodate more, w/out a VM.

How long?

Up to 3 hours of content is available across the portfolio Microsoft solutions. Online sessions are 1-2hrs. In-person events can be 2-3+ hours.

Who should attend?

Business Decision Maker, CEO, CIO, CSO, CTO, HR, IT Decision Maker, IT Pro, Change Adoption, etc.

As a Microsoft Learning Partner, pro•duhk•tiv is exclusively focused on supporting technology clients and truly understands the power of learning to drive demand. We have the expertise to help customers adopt and fully utilize Microsoft products.

The interactivity and sandbox approach to learning helps customers see the value of Microsoft solutions & tools available to them. The informal setting allows for open dialogue, real-world discussions and a hands-on approach to learning technology.

Microsoft Teams & Hybrid Work

Each Microsoft Teams & Hybrid Work Immersion Experience Session topic is approximately 90 minutes of hands-on learning and discussion. The topics in each Immersion experience are adaptable to the conversation and customer.

Getting Started with Microsoft Teams
During this interactive session, you will explore how to:
- Set up your profile and notification in Microsoft Teams
- Use chat and calling for 1:1 and group conversations, sharing and collaborating in Microsoft Teams
- Schedule and conduct meetings in Microsoft Teams
- Align your team and teamwork in Microsoft Teams

Integrate Your Business into Microsoft Teams
During this interactive session, you will explore how to:
- Integrate ready-to-use apps into the Teams experience
- Maintain control over which apps are accessible for your organization
- Create an App that embeds modern SharePoint pages in Teams using Developer Portal
- Manage permission and set up policies through the Admin Center
- Scale business critical apps to your organization

Thriving in the Era of Flexible Work
During this interactive session, you will explore how to:
- Reimagine modern collaboration to keep your people productive, connected, and secure wherever they are
- Empower your people to thrive in a more flexible world by rethinking the entire employee experience
- Get a head start on digitizing organizational processes to drive collaboration, productivity, and security

Transform the way your team communicates with Teams Phone
During this interactive session, you will explore how to:
- Use Teams for your entire meeting experience, including:
  - Sending agendas and setting context before the meeting, creating momentum
  - Sharing live applications and taking meeting notes, keeping attendees engaged during the meeting
  - Posting files and action items after the meeting, ensuring timely follow-through
- Record your meeting, making it easy for those who couldn't attend to get caught up
- Keep important meetings at your fingertips by pinning them for easy access
- Assess which audio and video devices are best for your meeting needs

Microsoft Surface & Dynamics 365

Each Microsoft Surface & Dynamics Immersion Experience Session topic is approximately 90 minutes of hands-on learning and discussion. The topics in each Immersion experience are adaptable to the conversation and customer.

Modernizing device IT with Microsoft Surface and Microsoft 365
During this interactive session, you will explore how to:
- Use Surface Deployment Accelerator and Windows Autopilot to automate and streamline device deployment
- Manage Surfaces in your organization using a single unified experience – including driver and firmware updates – with Endpoint Manager
- Secure your users across all phases of the Surface device lifecycle using Windows Hello for Business, Microsoft Intune, Surface Enterprise Management Mode and Surface UEFI
- Compare devices, features, tech specs, and recommended use to find the perfect PC for each person on your team

Enable Productive and Secure Hybrid Work with Microsoft Surface and Windows 11
During this interactive session, you will explore how to:
- Let users adapt and create their own ways of working without sacrificing productivity, security, or connectivity
- Help your employees stay engaged and productive whether they're in the office, at home, on the frontline or on the move
- Use Surface and Windows 11 to work seamlessly with Microsoft Teams and other Microsoft 365 experiences
- Find a perfect match for every person on the team to help connect, collaborate and create on a device they love, and you trust

Stay Connected to Your Customers
During this interactive session, you will explore how to:
- Empower your teams with innovative customer service tools
- Bring together transactional and behavioral data to measure customer success
- Uncover customer insights and turn them into action
- You will receive a link to access a remote desktop loaded with the latest technology, so you can experience first-hand how Microsoft can help solve your business challenges.
